Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows to circumvent potential 35 USC 101 issues:

5. (Currently Amended) An apparatus including a processor for universal programming language conversion between two different sequential programming languages including a source program in a first programming language and a target program in a second programming language, comprising: a parsing interface specific to the first programming language for parsing the source program in the first programming language and stripping all syntax from the parsed source program; a framework including instantiable classes for capturing a semantic representation of the parsed source program independent of syntax and execution model of the sequential programming languages; and a printer interface specific to the second programming language for receiving the semantic representation and adding the syntax of the target program in the second programming language.

Reason for Allowance

Art Unit: 2193

2. The following is an examiner's statement of reasons for allowance: the closest prior art references of record are the patents to Bahrs and Tondreau. However, neither reference teach or suggest the features of a parsing interface specific to the first programming language for parsing the source program in the first programming language and stripping all syntax from the parsed source program or a framework including instantiable classes for capturing a semantic representation of the parsed source program independent of syntax and execution model of the sequential programming language.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Chavis whose telephone number is (571) 272-3720. The examiner can normally be reached on M-F, 9:00am-5:30pm, EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Meng-Ai An can be reached on (571) 272-3756. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
